We often see people who have been turned down time and time again when they have applied for auto loans. These same people are often pleasantly surprised with the treatment they get at DriveTime dealerships. They're used to being shooed off the lot, so they're thrilled when they're welcomed with a handshake and a smile.

Creative loans mean car shoppers can buy a higher quality car, which helps turn "cheap" into "less expensive." Don't Settle for Just Cheap Used Cars in Orlando

People "buy cheap" because we want or need to save money on our purchase. That being the case, "cheap" is often a negative thing. At DriveTime, we approach the subject a little differently. Yes, we want you to be able to get a car, but we want the cars to be more than just affordable. They need to be quality vehicles that you can rely on to get you to work. And they need to come with the financing you need to be able to afford them. When you buy cheap used cars in Orlando, you should understand this from the beginning so you can make the choice that makes the most sense.

DriveTime "gets it." You've got to get to work, get the kids to school, do the shopping and running around that we all have to do. We know that you need a used car, truck, or van that will serve your family's needs.
