

Used Car Dealerships Orlando

The Premiere Used Car Dealerships Orlando Trusts

America is truly the land of opportunity—unless you have bad credit. Then it can easily become the land of closed doors and dirty looks. If you've have any of the normal factors associated with bad credit, like bankruptcies, late payments, repossessions, and so on, you're likely to be turned down by just about everyone if you need to borrow money for just about anything. But when it comes to used car dealerships Orlando knows DriveTime is the place to go for bad credit auto loans.

For most people with bad credit, being turned down is just part of reality. But we all need transportation, and it's no fun being turned down for a car loan. Another option would be to settle for a much less reliable, older car—the kind where you never know whether it's going to start when you get in it each morning. But DriveTime represents the kind of used car dealerships Orlando buyers really need. We provide our own financing and make our own lending decisions, and we're nationally known for financing great cars and trucks for people who don't have great credit. Most of the used car dealerships Orlando buyers are accustomed to dealing with don't understand how it feels to be "credit challenged." They all want the high-end wealthy customers who can just write a check for their new car and be on their way. In sharp contrast is DriveTime; we work with of thousands and thousands of customers each month, helping them work out payment plans that suit their individual needs. We've been told more than once that DriveTime is the kind of used car dealerships Orlando needs to have more of.
